

**MR. CORLETTA OBTAINS MAJOR REDUCTION IN SERIOUS ACCIDENT CASE.**

Consider this scenario: Summertime; weekend; afternoon; client has been drinking heavily. Driving on 2 lane roadway at high rate of speed, passes another car, unable to correct and clips bumper of vehicle ahead of him turning left onto residential street; bounces off that vehicle and ends up in a yard on the right hand side of the road.

Police investigate and run client through Field Sobriety Tests. Client arrested for Aggravated Driving While Intoxicated. Police get statement from driver that client passed indicating client driving recklessly. Client registers **.18%** BAC.

Most attorneys would think this client was facing severe punishment, including possible jail. Not Mr. Corletta.

Once again, working diligently to protect his young client, Mr. Corletta carefully took the case apart and exploited failures by police to properly investigate the accident. After 2 ½ years of Motions and Hearings, the case finally came to trial in a severely compromised position with the breath test results not being admissible, and the driver/witness being severely compromised as biased through cross-examination. The occupants of the vehicle struck were never produced.

The result? ***Dismissal*** of 3 underlying traffic violations and Defendant being found Not Guilty of Aggravated Driving While Intoxicated and Driving with an Illegal Blood Alcohol Content.

The client was only convicted of the minor traffic infraction Driving While Ability Impaired, which was not one of the original charges. The client received minor punishment, including a short term license suspension and mandatory attendance at the Impaired Driver Program.

The client will not have a criminal record, and will have their full driving privileges restored once they complete the 7 week Impaired Driver Program.

The client could not believe the outcome. The result only demonstrates what careful analysis and hard work can achieve.

For the second time in less than 30 days, Mr. Corletta achieved a substantial reduction for a client who was involved in a serious motor vehicle accident after having been drinking.

These clients, who obviously made poor choices, were grateful for Mr. Corletta's uncompromising, non-judgmental advocacy.

Unlike other attorneys, Mr. Corletta realizes he is not there to lecture the client, but rather to minimize or eliminate the legal consequences they face.
